ASSESSING TO BE A DIFFICULT JOB

Township Assessors Hear New Tax Law Explained Today by Members of State Commission

A COMPLICATED AFFAIR

Lump Figures Accepted This Year and Each Piece of Furniture Will be Itemized

Philip Zoercher, a member of the state tax commission, was here this morning conferring with the township assessors and their deputies, in the assembly room of the court house. A few days ago Earl Priest, county assessor, sent word to all of the assessors, to be here and receive instructions from a state official, as to what the state expected of them when they begin their assessing the first of March.

The new schedule for the assessment of personal property which will be used this year is almost as complicated as the income tax forms and as a result there is little chance for any property owner to escape payment of taxes on the full amount of his property.

Heretofore household goods have been assessed in a lump sum, but now the assessors begin their work on March 1 they will be required to itemize each separate article of household furniture with the appraisal of each item shown. As a result of the adoption of the new schedule more time will be required to assess each individual. The questions "crossed" in several different ways so as to prevent the concealment of any property.

The new schedule is a radical change from the old, although part of the former questions are included in the new blank. In former years many small articles of household furniture have been regarded as worthless by the owner and have not been included in the appraisal. This year nearly every article must be listed and assessed separately.

Included in the list of household goods are: bedroom suites, other bedsteads, beds and bedding, chairs, parlor sets, rocking and other chairs, carpets, druggets, rugs, rapiers, heating stoves, kitchen range, gas stoves, refrigerator, kitchen cabinet, library, book cases and racks, mattresses bed clothing, valuable paintings, stand or piano, lamps, dining table and chairs, table linen, china closet, chinaware and cutlery, kitchen utensils, wardrobes and trunks, handbags and satchels, cedar boxes, hall trees and mirrors, writing desk, porch furniture, swings, electric and other sweepers.

Then if the property owner is a farmer he will be asked if he owns any of the following and if he does the value will be listed:

Binder, mower, hay rake, hay loader, hay loader, sulky breaking plows, riding cultivators, other cultivators, disk or rolling harrows, spike tooth harrows, spring tooth harrows, field rollers, corn binders, stalk cutters, wheat drills, corn planters, hog racks, portable stock feeders and hog houses, corn crib and granaries, clover seed sowers, corn cutter and binder, land press, hog oil rubbers, water tanks and troughs, water heaters, lawnmowers, gear making outfit, chains and feed mills, gasoline tank and pumps, wire roller or stump puller, incubators and brooder, fencing material, milking machines.

These are just a small part of the questions that will be asked by the assessors. Most of the others on the schedule are taken from the old forms and include notes, mortgages, and other papers of value which are taxable. Farmers must be required to list all their stock: corn in crib, seed potatoes, hay and a hundred and one other articles which the state board thinks are of value. If a householder has any coal in his basement, the assessor wants to know how much so that it can be listed. If a farmer puts up a few crates of ice during the winter that also is subjected to assessment.

Then there are six other pertinent questions relative to the holdings of one's wife which are not included in

U. S. Bureau of Investigation Enlists Fair Price Committees

(By United Press.)
Washington, Feb. 24.—The United States bureau of investigation is hunting evidence against retail meat profiteers in every section of the country, it was learned at the department of justice today. Arrests are expected.

Assisting in the search which was undertaken on orders of Attorney General Palmer, are the 40,000 volunteer workers connected with fair price organizations.

The bureau of investigation personnel numbers approximately 10,000, making 50,000 who are taking part in the drive.

M'CRAY TO VISIT IN COUNTY TOMORROW

Candidate For The Republican Nomination For Governor Will Spend The Day Here

NO SPEECHES ON PROGRAM.

Warren T. McCray of Kentland, candidate for the republican nomination for governor on the republican ticket, will spend tomorrow in Rushville and at other points in Rush county, meeting republicans in the interest of his candidacy. He will most likely be accompanied by Lawrence T. Lyons, republican chairman of the twelfth Indiana district, his campaign manager, who is well known to many Rush county republicans. Mr. McCray was in Connersville today.

Mr. McCray's program does not call for any speeches during his visit here, despite the announcement in the Indianapolis Star this morning that he would address the Rushville "Community club" here tomorrow evening. This story is supposed to have originated from the fact that he will be a guest at the Social club dinner-dance tomorrow evening.

Mr. McCray is very popular among the republicans of Rush county. He carried the county in the primary when Governor Goodrich was nominated in 1916.

SPECIAL SESSION IS STILL IN DOUBT

Question is Raised in Letter From Gov. Goodrich Calling Meeting of State Candidates

SHOWS HE HASN'T DECIDED

(By United Press.)
Indianapolis, Ind., Feb. 24.—Whether there will be another special session of the Indiana legislature seemed to be in doubt today when Governor Goodrich made public a letter to republican candidates for state offices, asking them to meet him following the state committee meeting Thursday.

He indicated that he has not yet fully decided to call the general assembly.

His letter said: "The time is approaching when it is necessary for me to determine whether or not a special session of the general assembly is to be called."

"I would like to have a conference with candidates for state offices upon the republican state ticket on next Thursday."

The state committee meets upon that day and it is assumed that most of the candidates will be in the city that day.

The letter went to the avowed gubernatorial candidates and others seeking state political favor.

CRUSHED BY LOGS; DEAD

Monticello, Ind., Feb. 24.—Funeral services were held here today for Howard Stover, age thirty-four, who died at his home in Monticello Saturday night as a result of injuries received last Friday when he was crushed by logs falling off a wagon on him. Surviving are a widow and eight children and Mr. and Mrs. L. F. Stover, his parents.

ACTS TO SETTLE RUSSIAN QUESTION

Entente Decides to Send Commission Under Supervision of League of Nations

TO ENCOURAGE COMMERCE

To Discourage Warfare Between Bolsheviki and Border States to Bring it to An End

(By United Press.)
London, Feb. 24.—First definite steps toward settlement of the Russian question, universally regarded as the biggest of international problems, were taken by the entente today.

The council of premiers meeting here, decided:

To send an official commission into Russia to study conditions under supervision of the league of nations.

To encourage commerce between the Soviet government and the rest of Europe.

To discourage warfare between the Bolsheviki and the border states but to aid the latter if attacked by red armies.

To withhold diplomatic recognition of the Soviet "until convinced that the Bolsheviki horrors have ended."

In semi-official circles the action of the council was generally regarded as forecasting complete recognition of Russia in the future, economically and politically, with the consequent removal of her alleged menace to the rest of Europe and restoration of her status among nations.

This, it was believed, would be accomplished by an invitation to join the league of nations.

Although the new policy toward Russia reaffirms the entente refusal to recognize the Soviet government, it is accepted as a decided weakening from the previous stand and the decision to send a committee into Russia is regarded as practical warning to the border countries to cease warfare with the Bolsheviki.

TO FORCE THE ISSUE ON THE PEACE TREATY

Republican Leader Lodge Gives Notice He Will Call up Treaty in Senate Thursday

DEMOCRATS IN A CONFERENCE

(By United Press.)
Washington, Feb. 24.—Republican leaders have decided to force the issue on the peace treaty and bring a final showdown with little delay.

Senator Lodge today gave notice in the senate that on Thursday he will call up the treaty and insist that it remain before that body without interruption until disposed of.

Lodge said that he had agreed that the civil service retirement bill and the dyestuffs bill might be considered today and tomorrow.

"After that, however, I cannot consent to anything else except a conference report interfering with the treaty," he said.

Immediately after Lodge gave this notice, Senator Hitchcock, democratic leader, left the chamber for a conference with other leading democrats.

GEORGE W. CLINGMAN DIES

Farmer Falls Victim to Fluonia at The Age of 34 Years

George William Clingman, aged 34 years, died this morning about four o'clock at his home southwest of Rushville, following an illness of fluonia. The deceased had been ill for several days and grew worse yesterday. A widow and two children survive, besides the parents, Mr. and Mrs. Rolla Clingman of near Homer. The funeral arrangements were not completed today, but the services will probably be held Thursday afternoon.

NEWLYWEDS AND THE INCOME TAX

Revenue Men Are Asked Many Questions by Brides and Grooms About Their Taxes

LAW IS BOTH MUST PAY.

Those Married Before December 31 Must Fill Out Blanks Either Separately or Jointly

Bridegrooms are worrying as to how they shall figure their income tax. A constant stream of inquiries from the newlyweds is reaching the internal-revenue officials. In many of these cases both the bride and groom were employed up to the wedding date; and the principal point on which advice is asked is as to whether the bride's income must be shown on the groom's return.

The answer as given by the internal-revenue men is that all of the earnings and other income of both the bride and the groom for the year 1919 must be considered, even if it was all spent on trousseau, diamonds, wedding trips, and honeymoons. The fact that they were married on or before December 31 joins them for the whole year, so far as income tax is concerned.

A bride of 1919 is in duty bound to figure up her income and to add it to hubby's 1919 earnings to determine whether an Income Tax return is required. If the total was \$2,000 or more, a return must be made; in which case both bride and groom may file separate returns, or must file a joint return. The latter method is preferred by the collectors, unless the aggregate net income of both husband and wife is \$5,000 or over.

And they all want to know whether, although married only part of the year 1919, they are entitled to claim full exemption as a married couple. The answer is a decided yes; they are allowed \$2,000 plus \$200 for each dependent who is under 18 or who, through age, defect, etc., is incapable of self-support. This exemption may be split in any proportion on the separate returns of husband and wife if they file that way.

"And remember that March 15 is the final day for filing returns and paying income taxes," is the warning that the revenue men add to the above advice.

SEVERAL BUILDINGS ORDERED TORN DOWN

S. C. McCall, Inspector in State Fire Marshal's Office, Also Warns Garagemen

SEVERAL ARE USING STOVES

S. C. McCall, an inspector of public buildings, working in the department of the state fire marshal's office, was in Rushville today on an inspection tour of various buildings. Fire Chief Joe Williamson entertained the inspector while here, and showed him the buildings which were inspected.

The morning was spent on a tour of the garages and many of the garage owners were given instructions to do away with heating stoves in the buildings, which is a violation of the state law. Mr. McCall stated that several garages here had steam heating plants, and were using stoves during the winter weather.

The inspection of the city school buildings took place this afternoon, as well as a complete trip through the court house, jail and county poor farm. Several frame buildings near the business part of the city were ordered torn down or remodeled with fire proof material.

U. S. TRADE BALANCE GAINS

Washington, Feb. 24.—Despite the foreign exchange situation the trade balance in favor of the United States increased \$257,000,000 in January, figures made public today by the department of commerce show.

BRITISH AGENT EXECUTED

Positive Evidence of Deliberate Killing by Irish Court Martial

(By United Press.)
Cork, Feb. 24.—Positive evidence of the first instance of deliberate execution of a British secret agent by order of a court of the Irish republic came to light here today, it was learned reliably.

Investigation into the death of Harry Quinn, alias Quinn who was sentenced to death by a Sinn Fein court martial and later led into a lonely field at midnight and shot, developed this fact.

All of the men on the court martial body were masked, according to the information. The proceedings throughout were drastic.

PETTY GRAFTER POSING AS A LAWYER

Man Traveling About State Impostoring on Credulity of Attorneys Pays Visit to Rushville

ALWAYS IN NEED OF CARFARE

"By George, let me see, how much is the fare to Connersville?"

The Rushville lawyer interrogated said it was three cents a mile plus the war tax, giving the approximate amount.

"I need just thirty cents to get over there; let me have it, will you?"

Thus spoke the self-styled lawyer giving his name as Rogers, who has been traveling about the state posing as an attorney, in the office of a Rushville lawyer yesterday afternoon.

The local man "forked over" the thirty cents, knowing all the time that it was a form of "cheap graft" which was being used on him.

He knew it because an Indianapolis attorney had told him only a few days before how this same fellow, using the same name and the same plan, "worked" several Indianapolis lawyers for small sums of money.

Why the fellow should devote his time to "borrowing" a few cents off of attorneys is not known, because he apparently can't make much at the game. He attracts the interest of lawyers by discussing well known attorneys of the state as if they were his intimates.

LAST NUMBER OF THE LYCEUM COURSE FRIDAY

Trinacria Concert Company to Appear at First United Presbyterian Church

COMPOSED OF THREE ARTISTS

The last number on the winter lyceum course, given under the auspices of the Rushville Ministerial association, will be held Friday night at the First United Presbyterian church, when the Trinacria Concert company will appear.

The concert company is composed of three artists, namely, Raoul Bonanno, baritone; Charlotte Simpson, soprano and Gwendolyn Bayless, piano soloist. All three of the artists are highly recommended to be good entertainers.

Mr. Bonanno, who is from the Paris opera, has won international recognition as an artist both in opera and concert. He has made many tours of the United States and his songs are given in many languages. Miss Bayless, pianist, not only accompanies the other two artists, but also wins much applause by her solo numbers. Miss Simpson took a leading part in "Madame Butterfly" and is widely known for her excellent singing.

QUIT FOR GOVERNOR

Indianapolis, Ind., Feb. 24.—Announcement of the candidacy for the democratic nomination for governor was made today by James K. Risk of Lebanon. John Jones of Plymouth, author of the Jones primary law, will manage his campaign.

DISCUSS PLAN OF LIVE STOCK BODY

Presidents of Farmers Associations of District Consider Committee Projects

COMMITTEE MEETING TODAY.

Service Department to Look After Interests of Shipper at Indianapolis Stock Yards

The principal thing discussed at the meeting of the presidents of the county farmers' associations of the eighth district, held here yesterday afternoon, was the plan of the live stock committee of the Indiana Federation of Farmers' associations, which was under the consideration of the board of the directors of the state association at a meeting in Indianapolis today.

The policy of the live stock committee will be based largely on the report of Fred Bell of Union township, president of the Rush county association and member of the state committee, which was made at a meeting of the committee in Indianapolis last week. Mr. Bell previously made a report on his inspection of the Indianapolis stock yards at a meeting of the Union Township Farmers association.

The county chairmen of the farmers' associations always meet by districts before a session of the state board of directors, to instruct the district member of the board, regarding the sentiment in their respective counties on the matters to come before the state directors.

L. M. Volger of Hop, Bartholomew county, the eighth district director, was unable to be present at the meeting here yesterday on account of illness and the purpose of the meeting was lost.

Largely due to the disclosures made by Mr. Bell of conditions at the Indianapolis stock yards, tentative plans have been drawn by the permanent live stock committee of the state association, for the creation of a service department to look after the interests of live stock producers who ship to the Indianapolis stock yards.

"The plan calls for placing a keen active representative of the federation at the stock yards to be on duty at all times to take care of the interests of the farmer," said Lewis Taylor, general secretary.

"We want to see that the producer gets a fair deal and that his interests are safeguarded from the time his stock reaches the belt railroad until the actual sale is made. Investigation has proven that loose practices in the past has cost the farmers many thousands of dollars."

"We expect to have reports made to headquarters where unfair dealing is charged and to see that the law is complied with in every manner. The stock raisers of the state feel that they are entitled to maintain some sort of supervision over their interests in a market to which they sell approximately \$160,000,000 worth of produce in a year."

WILL OPEN KINDERGARTEN

Elizabeth Waite Will Conduct Summer School at Jackson Building

Plans have been made for the opening of a private kindergarten at the Jackson school May 30, this school being chosen because the playground makes it an attractive place for a summer school. The kindergarten will be in charge of Miss Elizabeth Waite, teacher of the first grade at Jackson school, and children between the ages of three and a half and seven years are eligible. If the number of younger children justifies, a separate class will be formed for the kindergarten period. Parents interested are urged to see Miss Waite at once as it is desired the enrollment be known before materials are ordered.

PHILLIPS NOMINATED

Washington, Feb. 24.—The nomination of William Phillips, first assistant secretary of state, to be minister to the Netherlands, was sent to the senate today by President Wilson.

MILROY TRIUMPHS OVER RUSHVILLE

Anderson Township Five Averages
Defeat Earlier in Season,
Winning by Same Margin

FINAL SCORE IS 30 TO 22

Rushville Could Have Won With
More Endurance, in Opinion of
Fans Who Saw Game

Milroy averaged their previous defeat at the hands of the Rushville high school team, and came back last night on the big side of the score, winning by eight points, 30 to 22.

In the game here when Rushville beat Milroy, a margin of eight points existed then 25 to 17.

It was plainly seen last night that the local team would have won the game, had they had the endurance. In almost every game played here this year, Rushville has set a fast pace for a ten minute period, which no team has been able to overcome, but this fast clip is soon smothered and the visitors climb in and take a lead.

The first ten minutes last night the Rushville team completely outplayed Milroy. Eakins caged a field goal from the center of the floor in quick time after the beginning of

the game, and in less than a minute he repeated. Innis for Milroy threw a foul goal, and then Eakins found the hoop again from the center of the floor.

With Rushville leading 6 to 1, Milroy gradually began to awaken and became better on their passing and team work, and Richey found the net for them, with Innis following close behind. E. Headlee for Rushville caged a beautiful goal from a difficult angle at the side of the floor, and Rushville continued to lead, 8 to 5.

Milroy then overcame the lead by making two field goals in rapid succession. It was here that the visitors maintained their lead, and at no period the game afterwards was Rushville ahead, although the score was tied in the last half several times.

With the visitors then leading 9 to 8, Innis for Milroy made good a foul goal, giving them a two point lead. Just before the whistle blew for the end of the first half, Eakins again put the ball through on a long shot, leaving Rushville behind two points, 12 to 10, at the close of the first half.

The second half started with a rush and each team was on edge for a few minutes, until L. Headlee tied the score, 12 to 12. The next few minutes a battle was staged to see who would get ahead and after a few minutes of play Stewart and Osterling for the visitors each got a basket, making the score 16 to 12.

Then E. Headlee landed another one from the center of the floor and Eakins followed closely behind him, again tying the score, 16 to 16.

The half was about ten minutes gone, and the entire crowd was worked to a high pitch. In no other game in the history of the school was as much anxiety displayed as there was at this moment.

But Rushville was doomed, as the fast clip for ten minutes began to exhaust them, and from this time on Milroy began to pile up the score. The visitors got 20 points and Rushville 18 and then Milroy began to gain ground until they had 28 points to Rushville's 18.

While late in the game Rushville found the basket twice more, and Milroy once more just before the whistle blew. Many substitutes were run in for Rushville, but they could not do anything to stop the visitors.

Much of the fighting spirit for Rushville is due Eakins, who played his best game of the year last night, both from a viewpoint of team work, and goal shooting. He made six goals in the game, and no Milroy man looked too big for him to tackle.

E. Headlee showed up well last night and played like he had been doing earlier in the season. Frazee stayed with his man all of the time and played his position of back guard in perfect style.

Miller was good on the floor work but was off when it came to hitting the basket. He and Eakins both lived in and fought hard for honors, but luck wasn't with "Shinny" last night, on his shots, he being able to make only one.

L. Headlee was in about the same position as Miller, and was unable to get many good shots at the basket, but added much to the efficiency of the team by his passing.

From a spectators viewpoint, it was wondered why the Milroy team didn't pile up a much greater score, they were such tall, lengthy boys

and everything favored them. Six of the players are six feet and two inches in height, while the tallest player for Rushville is less than six feet tall, and most of them are much smaller.

The players here are anxious to meet Milroy again in the tournament, and will no doubt have a chance at them here Saturday night and a hotter contest than the one staged last night is promised by the local players.

The attendance last night was the largest of the season.

The score and summary:

Milroy (30)	Rushville (22)
Innis	F. Headlee
Stewart	F. Miller
Osterling	C. E. Headlee
Richey	G. Frazee
Harcourt	G. Eakins

Field goals: Innis 3, Stewart 4, Osterling 4, Richey 3, L. Headlee, Miller, E. Headlee 3, Eakins 6. Foul goals Innis 2 out of 5 and Eakins were out of four. Referee Ross Smith.

Fairview 41; Morristown 18

In the preliminary game last night Fairview again loomed forward as a "dark horse" in the coming tournaments here, when they walked away from the Morristown team 41 to 28. Fairview has made wonderful strides in the last three weeks and has now come forward as a dangerous opponent in the tournament.

The team work of the Fairview quintet was superb and even surpassed that of the Milroy-Rushville game. Fairview started the scoring and soon doubled the score on Morristown and throughout the entire game kept twice ahead of the losers. The first half was 22 to 11.

Peters, lengthy center and Hill, floor guard were the point getters, each securing 7 field goals for Fairview. The rest of the team aided with their passing and Morristown was completely taken into camp. The losers were not accurate with their shots and missed many easy attempts at the basket.

Fairview lined up as follows: Link and Patton, forwards; Peters, center; Hill and Reed, guards. Morristown: Hawk and Zike, forwards; Addington, center; Arnold and Abel, guards. Field goals: Link, Patton 4, Peters 7, Hill 7, Hawk 4, Zike 2, Addington. Foul goals, Peters 3, Hawk 4.

Bargains are always Advertised

There are more than 3,000,000 Ford cars in daily operation in America. This is a little better than half of all the motor cars in use in the country. There is a very potent and profitable reason in this why you should buy Ford cars for your business and for your personal use. It is a demonstrated fact that Ford cars have, in every line of human desire so far as motor cars are concerned, best satisfied their owners with the service given. They must be safe; they must be comfortable; they must be always reliable; they must be convenient, and they must be economical, or they wouldn't be so tremendously popular with all classes of people. The big Ford Factory has not yet reached normal production, but the war is over, and it is getting back as fast as possible. We are getting a few cars in right along, and we will do the best possible to give you early delivery. Runabout, \$500; Touring Car, \$525; Coupe, \$650; Sedan, \$775; Truck Chassis, \$550. These prices are f. o. b. Detroit.

Leave your order with us and be assured of two things: First, the earliest possible delivery; Second, an after service that has the strongest commendation and endorsement of the Ford Motor Company as being a reliable, satisfactory and economical service.

The New Silks First

A Silk For Every Occasion, And a Silk For Every Day.

The prettiest dresses are made of Silks—the handsomest suits are lined with Silks—the most exquisite undergarments are delicately fashioned in Silks, and the smartest accessories of dress are Silken Conceits. For this reason, great is the name of Silk.

—We mention a few of the most popular for Spring and Summer.

—The kinds are noteworthy.

FLOWERED TAFFETA

One of the newest and prettiest of silks for Spring is the flowered taffeta which comes in many shades and patterns. Strictly new this season.

PLAIN TAFFETA

We have them in exceptionally good shades which are the desired shades of the season. Nothing better than taffeta for the coming season.

PLAID POPLINS

A very charming silk for separate skirts is the new plaid poplin in pink and white. Also in plain colors.

BEAUTIFUL VOILES AND GINGHAMS

In large and varied collections we are showing beautiful Figured Voiles and dainty Silk Tissue Gingham. Many of the voiles are mistaken for figured georgette, so marked is the resemblance. Our patterns in tissue gingham with the silk stripe are pleasing to the eye.

Interest and Attendance in First Presbyterian Meetings Reveal Marked Improvement

PILATE'S QUESTION, SERMON

Interest and attendance in the meetings at the First Presbyterian church showed a decided increase last night over a week ago and give promise of a fruitful week. The service was a most encouraging one in every way. The members of the chorus are showing a fine spirit of loyalty under Mr. and Mrs. George's inspiring leadership and are doing most excellent work. The duet was a fine preparation for the message that followed, the sermon being on, Pilate's question asked as Jesus stood before him for judgment. "What shall I do then with Jesus?" "A question that presented the greatest problem of his life," said the Rev. G. F. Sheldon, "and yet a question that he had to answer. He tried to avoid it but could not. So Christ is the unavoidable issue in every life and that issue must be met here or at the judgment where all must be made manifest before Christ. Pilate's wife, the Jews and his own conscience, all answered that question, but he decided to counter them all. What Christ stood for, what He had done in ministering to human need and what He has accomplished through His sacrifice for man's salvation, were all emphasized as entering into the vital issue that presents itself to every man today in the form of that question, "What shall I do then with Jesus?" And what each one does determines what he is for time and eternity. It is a destiny deciding question.

BERLIN—America has had no time for European and Asiatic problems in view of its own negro problem. At least, that is the information a local news agency imparts to the German public. The article adds that the negroes are leaving the farms, endangering the cotton crop harvesting, and that "a new movement in favor of negroes" is noticeable in the northern states.

Wanted—A Definition.

The resignation of Secretary of State Lansing, under circumstances which are sensational to say the least, simply emphasizes the necessity for immediate action by congress in defining in no uncertain terms what shall constitute the disability of the president, either temporary or permanent.

The constitution provides that the vice-president shall assume executive authority during the disability of a president, but it does not define disability.

The president, according to his own statement, feels that Mr. Lansing unlawfully usurped presidential authority.

Mr. Lansing retakes that he called the cabinet together in order that pressing matters of grave import might be considered at a time when cabinet members were denied all access to the president by his medical attendants.

The welfare of the government is paramount to the interests, ambitions or desires of any individual member thereof, whether that member be the president or some lesser official.

The dismissal of Mr. Lansing has given the public much food for thought—and it is doing much thinking. It is not a matter of party in any sense of the word. It is one of country.

There should be no recurrence of the present regrettable situation for lack of means of determining the exact condition of the executive.

Congress should define disability at once, and provide for the orderly and legal conduct of governmental affairs during such temporary disability as would not warrant the vice president in assuming the functions of the office. It should also define what constitutes the removal of disability.

As Others See Us

A stranger judges this town mainly by its appearance.

If it is clean, sanitary and inviting, he carries the good word afar. But if it is dingy, and ill kept, he carries the bad record to even greater distances.

We should have a reputation second to none—superior to many—but we will have only that which we carve out by our own efforts.

Let's all pitch in and make this the cleanest and the brightest and the most progressive year in our history.

Spring is the time to begin.

It has been established by officers' testimony before the House committee investigating war expenses that 1 private inadvertently was awarded the Distinguished Service Medal bestowed by the board of officers on seven out of eight Major Generals in the army. It was made clear why the other 1,999,999 fighting privates of the line were denied the decoration but it is still a mystery as to what was the matter with the eighth Major General.

The "shimmy" and improper footwork and "holding" in dancing were censured at last night's meeting of the National Educational association. A crusade in this direction could enlist a lot of support.

Judging from the vote on the railroad bill in the senate and house, union labor is going to be busy defeating the congressmen and senators on the "blacklist" for supporting the measure.

An American general testified that the Yanks were too busy fighting to stop at the armistice hour, which further reveals why the tide of battle turned when America got into the war.

We have at last found a congress which is not afraid of the threats of union labor but which will do what it regards as right.

FAVORS A LECTURE COURSE

Ministerial Association Thinks, However, Citizens Should do it

The Rushville Ministerial association held a meeting yesterday at the home of Rev. John T. Aiken and one of the matters of business discussed was the advisability of putting on a lecture course next year.

It was the feeling of the ministers that Rushville ought to sustain a good lecture course another year, but the ministerial association does not put the lecture course on a scientifically broad basis. While the ministers are willing to cooperate in every move toward getting a lecture course for another year, it is their opinion that it ought to be under the auspices of a citizens' committee.

Our Daily Laugh

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

Pug Wilson, an expert second story man, invaded the Wilson home at two in the morning and stumbled over a chair. The sharp voice of an irritated housewife called:

"Lemuel, how many times have I ordered you to take off your boots when you come in out of the rain. It's been rainin' all evenin' and I'n bet you've muddied all the carpets. Go down stairs and take 'em off at once."

Burglar Wilson obeyed orders but not for the reason the housewife imagined. As he gently closed the front door and trailed down the street he murmured:

"Why, I jest couldn't rob that shack! What I heard reminded me of home."

Don't Neglect The Little Ones

snuffling, sneezing coughing certainly is a reflection upon parents. To permit a child to grow from a cold is more than negligence; it is cruel. A cold that is on weakens the system and easily turns into something serious.

Mrs. J. S. Pitson, 376 E. 1st St., Cleveland, Ohio, writes: "I can't speak too highly of Foley's Kidney and Tar. When my little girl had a cold I gave her Foley's Honey Tar and that stops her coughing in a little while." Children like it contains no opiates. F. B. Son—(Adv.)

Amusements

Nazimova Picture at Princess

Madame Nazimova will appear at the Princess theater tonight in "Out of the Fog," a picture which comes here highly recommended as being one of her best efforts.

Elaine Hammerstein, Selznick's charming star, has the leading role in "Greater Than Fame," a Selznick production which is to be shown at the Princess Theatre Wednesday. This drama of life gives this popular star a chance to display her superb qualities and histrionic ability, more perhaps than any other production in which she has appeared.

The story is pleasing, interesting, and in its screen adaptation every dramatic situation has been developed to advantage. There are, at times, bits of humor, to which Elaine Hammerstein responds charmingly, and in the more serious moments she portrays the character with much sincerity.

Miss Hammerstein is cast as a talented village girl who seeks to further her ability to sing by going to the Mecca of all masters—New York City. Her adventures in realizing her ambition provides the plot. How she meets with all types and classes and how she decides to work out her own salvation and yet win success, make this photodrama one of unusual interest.

"The Black Circle," Mystic

Creighton Hale in "The Black Circle," is the attraction at the Mystic theater today, together with the official exploits of the U-35, a German submarine, which will also be shown tomorrow. The picture of the activities of the Hun U-boat, which were captured by the British men when the undersea vessel was taken are said to be the most sensational of any relating to the war. They were taken by the crew of the U-boat to supply proof to the kaiser that they were getting results. There is no doubt about the authenticity of the pictures, they recently having been released in this country.

"The Public Defender" will be the bill tomorrow.

Frank Kennan, Robert Edeson and Alma Hanlon are the stars, supported by a cast of over two hundred. The story was inspired by Mayer's Goldman's book of the same name.

Charles G. Newkirk said today an error was made yesterday evening in stating that he held Elda Salver, check forger, at the point of a revolver in Poe's jewelry store Saturday night while Jess Poe went after the police. Instead he declares he went in search of the police after being called in by Mr. Poe and requested to hunt the officers. While still in search of them, Mr. Newkirk met Policeman Pea with the boy on the way to jail.

KILLED IN A COLLISION

Goshen, Ind., Feb. 4.—Edson Ulery, age thirty-three, of Goshen, who was motorman on an Illinois Traction Company sleeping car being operated from Peoria, Ill., to St. Louis, was killed in a head-on collision near Peoria early Sunday. Details of the accident have not been received here.

80 Years Old—Fit As a Fiddle

"I had a bad case of stomach and bowel trouble that four doctors could not help. Suffered all kinds of pain, was filled with gas and constipated for years. NOTICE

For the Improvement of a Highway in Walker Township, Rush County, Indiana.

Notice is hereby given that a petition has been filed in my office for the grading and paving with crushed stone of a certain highway in Walker Township, Rush County, State of Indiana, which petition is signed by Frederick Hilligoss et al., and is in words and figures as follows, to-wit:

TO THE HONORABLE BOARD OF COMMISSIONERS OF RUSH COUNTY, STATE OF INDIANA:

We the undersigned petitioners, would represent and show to your Honorable Board, that this petition is signed by more than fifty free holders and voters of Walker Township, Rush County, Indiana; that there is now an existing public highway upon the following course and location, to-wit:

"Commencing at the township line between Walker and Orange townships, said Rush County, Indiana, at the southwest corner of the southeast quarter (1/4) of section twenty-nine (29) and the southeast corner of the southwest quarter (1/4) of said section twenty-nine (29) township thirteen (13) north, range nine (9) east; thence north on the line dividing the southeast and the southwest quarters of said section twenty-nine (29) to the line dividing the north and south halves of said section twenty-nine (29); thence west (1/2) of said section twenty-nine (29) to the southwest corner of the east half (1/2) of said section twenty-nine (29), township and range aforesaid; thence

north on the line dividing the east half (1/2) and the west half (1/2) of the northwest quarter (1/4) of said section twenty-nine (29) and the line dividing the east and west halves of the southwest quarter (1/4) of section twenty (20) township and range aforesaid to a point in said line where the now established public highway over said route turns in a westerly and northwesterly direction; thence following the line of said now established highway across the west half (1/2) of the southwest quarter (1/4) of said section twenty (20) township and range aforesaid to the west line of said section twenty (20); thence north on the west line of said section twenty (20) to the northwest corner of the southwest quarter (1/4) of said section twenty (20) and the northwest corner of the southeast quarter (1/4) of section nineteen (19), township and range aforesaid, connecting therewith with the Lorie Miller macadam road and the gravel road running east and west on the line dividing the north and south halves of said section nineteen (19);

Four petitioners would represent and show to the Board that the public highway is in its entire length and breadth now established and connects at the south end thereof with the township line between Walker and Orange townships, said county and state, and the north end thereof with the Lorie Miller macadam road, which is the terminus thereof; that the same is now used and traversed by a United States Free Delivery Route and free school delivery route; that said Walker township has no incorporated town or city within its borders.

Your petitioners ask and pray your Honorable Board, that the said public highway be improved by grading, draining and paving the same with crushed stone, covered with stone screenings, and that the width be established as now laid out and dedicated and not less than thirty-two (32) feet in width; that all necessary drains, side drains, bridges, culverts and sewers therein be so constructed as to make said public highway a complete macadam road and that said road and improvement be less than three miles in length, and that the same be done for the improvement of said public highway in all things according to sections 62 to 63 inclusive of the Acts of the General Assembly of 1906, entitled "An Act Concerning Public Highways" and all acts amendatory thereof and supplemental thereto.

Signed:

TO THE HONORABLE BOARD OF COMMISSIONERS OF RUSH COUNTY, STATE OF INDIANA:

We, the undersigned petitioners, would represent and show to your Honorable Board, that this petition is signed by more than fifty free holders and voters of Walker Township, Rush County, Indiana; that there is now an existing public highway upon the following course and location, to-wit:

"Commencing at the northwest corner of section seventeen (17), and the northeast corner of section eighteen (18) township thirteen (13) north, range nine (9) east; running thence south on the line dividing said sections seventeen (17) and eighteen (18) and sections nineteen (19) and twenty (20) township and range aforesaid to the southwest corner of the northwest quarter (1/4) of section twenty (20) and the southeast corner of the northeast quarter (1/4) of section nineteen (19) and the northeast corner of the southeast quarter (1/4) of said section nineteen (19) and the northwest corner of the southwest quarter (1/4) of said section twenty (20) township and range aforesaid, connecting with the Frederick Hilligoss macadam road at said point."

Your petitioners would further represent and show to the Board that the said public highway is in its entire length and breadth now established and connects at the south end thereof with the Lorie Miller macadam road and at the north end thereof with the Rushville and Shelbyville free gravel road or the E. B. Lowden free gravel road; that the same is now used and traversed by a United States Free Mail Delivery Route and free school delivery route; that said Walker Township has no incorporated town or city within its borders.

Your petitioners ask and pray your Honorable Board that the said public highway be improved by grading, draining and paving the same with crushed stone, covered with stone screenings and that the width be established as now laid out and dedicated and not less than sixty-two (62) feet in width; that all necessary drains, side drains, bridges, culverts and sewers therein be so constructed as to make said public highway a complete macadam road and that said road and improvement will be of great public utility to grade, drain and pave the same as hereinbefore set out and the costs thereof will be less than three miles in length.

Wherefore, your petitioners pray for the improvement of said public highway in all things according to sections 62 to 63 inclusive of the Acts of the General Assembly of 1906, entitled "An Act Concerning Public Highways" and all acts amendatory thereof and supplemental thereto.

Signed:

Lorie H. Miller, D. M. Miller, John Wail, C. P. Miller, Carl E. Miller, J. A. Wissing, H. E. Lowden, F. L. Mull, R. C. Plummer, Tom Crim, O. P. Ellison, R. G. Flu and Colds How They Can Be Prevented

Sleep Well—Eat Wisely—Exercise
Regularly—Avoid Persons Hav-
ing Colds—Don't Worry.

KEEP AIR PASSAGES CLEAR

Inflamed Air Passages Make Ideal
Breeding Grounds For Flu
Germs.
Flue This Year Is Milder.

While we know very little more
about the flu—than we did last
year—the germ itself has never been
positively identified—still most auth-
orities agree that the flu germs are
breathed in. If the system is in good
shape and the membrane or lining of
the air passages is in healthy condi-
tion—these germs are thrown off.

A good plan is to melt a little
Vick's VapoRub in a spoon night and
morning, and inhale the vapors, also
apply a little up the nostrils several
times a day, especially just before
being exposed to crowds.

Treat All Colds Promptly.

Above all, keep free from colds,
as colds irritate the lining of the air
passages and make them real breed-
ing grounds for germs. Prompt use
of Vick's VapoRub aids in prevent-
ing colds. For head colds, sore
throat or hoarseness, rub Vick's well
over the throat and chest and cover
with a warm flannel cloth. For deep
chest colds, severe sore throat or
bronchitis, hot wet towels should
first be applied to the throat, chest
and back between the shoulder
blades to open the pores. Then
Vicks should be rubbed in over the
parts until the skin is red—spread
on thickly and covered with two
thicknesses of hot flannel cloths.
Leave the clothing loose around the
neck, so the vapors, released by the
body heat, may be freely inhaled.

These vapors, inhaled with each
breath, carry the medication directly
to the lungs and air passages. At
the same time Vicks is absorbed
through and stimulates the skin, thus
aiding to relieve the congestion with-
in.

Use of External Treatment for Colds Increasing.

Vick's VapoRub is the discovery
of a North Carolina druggist who
found how to combine in Salve form
the standard time tested remedies,
Camphor—Menthol—Eucalyptus—
Thyme, etc.—so that when the salve
is applied to the body heat, these in-
gredients are liberated in the form
of vapors.

Vicks is particularly recommended
for children's croup or colds, since
it is externally applied and therefore
can be used freely and often with-
out the slightest harmful effects.

The best evidence of the value of
Vicks is the steadily increasing num-
ber of people who have been con-
verted to the use of this "outside"
treatment.

Beginning with the customers of a
small retail store, the use of Vicks
has grown—year by year—state by
state—until now more than 17 mil-
lion jars are used annually. And
this in spite of the fact that Vicks
is a new form of treatment to many
folks in the North and West. Vicks
can be had at all druggists in three
sizes—30c, 60c or \$1.20.

RED CROSS SEALS RAISE 10 MILLION

Next Xmas Seals to Feature Double Barred Cross Instead The American Red Cross

DISCONTINUE CO-OPERATION

Annual Financial Holiday Campaign Will be With a Distinct Tuberculosis Seal

Christmas seals to be sold next December will feature the double barred cross, the emblem of the national campaign against tuberculosis instead of the American Red Cross. In making this announcement, the National Tuberculosis Association states that the American Red Cross has formally withdrawn from participation in the Red Cross Seal Sale and the tuberculosis movement and that hereafter the annual educational and financial Christmas campaign will be with a distinctively tuberculosis seal.

The Red Cross Seal, which has been the means of support of the voluntary agencies engaged in the fight against tuberculosis throughout the United States for over eleven years, has raised over 110,000,000 for this cause. In discontinuing its cooperative relationship with the American Red Cross, Dr. Livingston Farrand, the Chairman of the Central Committee of the Red Cross states that the circumstances make it inadvisable to continue the use of the name and symbol of the Red Cross, but that the tuberculosis seal to be put out next Christmas time by the National Tuberculosis Association will be recognized by the American Red Cross as the lineal descendant of the Red Cross Seal.

Dr. Charles J. Hatfield, Managing Director of the National Tuberculosis Association, announces that the sale of seals at the recent holiday will bring in a gross return of somewhat over \$4,100,000, according to present reports, thereby assuring a much larger war against tuberculosis during the coming year than has been displayed in previous years.

In a statement issued to the newspapers, Tuberculosis Association to Hatfield says: "The thanks of the National Tuberculosis Association to the newspaper, magazine and trade press cannot adequately be expressed in words. Without your assistance we could not have accomplished the significant financial and educational result that is indicated in the returns from the Red Cross Seal Sale."

Rough Roads for Wheels Are Smooth Roads for Passengers

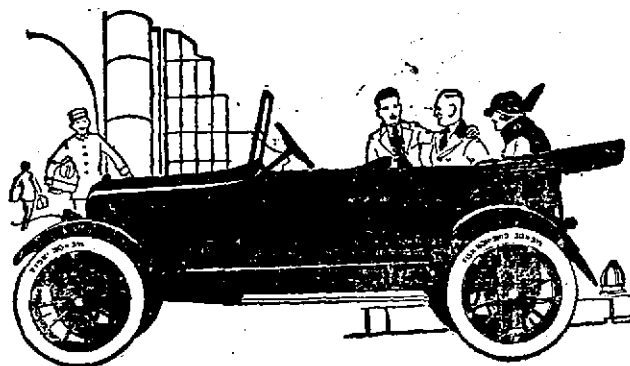

WATCH Overland 4 on rough cobbles or unpaved roads. The wheels follow surface inequalities, but the new Triplex Springs give car and passengers remarkable riding steadiness.

They give 130-inch Spring-base to a car of 100-inch wheelbase.

This makes for the gently

buoyant road action of a large, heavy car with the economy in upkeep, fuel and tires, and convenience of handling of a scientifically designed light car.

DEANS OF WOMEN IN MEETING IN CHICAGO

Constructive Work Among College Women Was the General Topic For Discussion

MANY SPEAKERS ATTENDING.

Chicago, Feb. 24.—Constructive work among college women was the general topic for discussion at the meeting of the Association of Deans of Women of State Universities, which convened here Monday.

Frank ideas as to methods of gaining better results among college women will be presented according to Miss F. Louise Nardin, Madison, Wis., a member of the society.

Speakers from all parts of the country were here in attendance. Among speeches scheduled are: "How to Help the Self-supporting Girl," by Mrs. K. W. Jamison, dean of women of the University of Montana; "The Present Housing Situation and Plans for the Future" by Mrs. W. J. Koller, University of Wisconsin, and "Constructive Methods of Securing Better Dancing" by Miss Ella Fulton, dean of women of the University of North Dakota.

The report of the National Foundation of Women for Social Health will be given by Dean Ruby E. C. Mason of the University of Illinois.

A report on the salary and status of deans of women in state universities will also be presented, followed by the election of officers.

Dean Ruby E. C. Mason of the University of Illinois will preside. The convention will continue until Feb. 25.

RESULTS FAIL TO SHOW FOR WHOLE YEAR

Lady Finally Finds Remarkable Relief Thru Trutona in Short Time

Muncie, Ind., Feb. 23.—I have tried other medicines without results but in spite of this Trutona is giving me the relief that I have wanted all the time. This statement was made a few days ago by Mrs. George Wagner, wife of an employee of the Kelly Furniture Co., of Muncie. She is well known here and lives at 407 West Eighth street.

"For the past year I have suffered with my stomach," she says. "Shortly after meals I would experience a gnawing pain there and very often gas would form. Then I would feel bloated. I had a pressing around my heart and would be very short of breath at times. I suffered from a severe pain in my right side. Nervousness prevented me from sleeping well, and I usually felt as tired when I got up as when I went to bed the night before."

"I've taken one bottle of Trutona and now I am confident that it is the best medicine for ailments such as mine. I'm not bothered with the gas formations or the bloated feeling as I was before and I'm not nearly as short of breath. The pain in my right side has been relieved while I sleep well and don't feel tired in the morning as I used to. I'm going to continue using Trutona for I am sure that it will entirely relieve me of my troubles in a short time."

Trutona is now being introduced and explained in Rushville at Hargrove and Mullin's Drug Store. Adv.

EDUCATIONAL USAGE UNDER EXAMINATION

10,620 School Teachers and Educators Meet to Discuss the Present School System

SESSION TO LAST A WEEK

Cleveland, O., Feb. 24.—Educational methods practiced in the public schools of the United States were under the examination of a clinic of 10,620 primary school teachers, superintendents and other educators in convention here today. The session lasts a week.

Four educational bodies are in simultaneous convention. They are the National Council of Primary Education; the American School Hygiene association; the National Council of Education and the National Society for the Study of Education.

The introduction of more activity and freedom in the primary schools is the aim of the primary association said Miss Ella V. Dobbs secretary. The members have contributed scores of papers on the subject and a composite program, embodying all meritorious points, will be prepared and made effective.

Noted educators from all parts of the country were scheduled for talks. Approximately 500 individual meetings will be held by the four associations.

AGED MAN BREAKS LEG

John Clark, age ninety-six years, fell and broke his leg at the home of his daughter, Mrs. Ben Norris, near Carthage, yesterday, and his condition is regarded as serious on account of his extreme age. Mr. Clark is a brother of the late George Clark who for many years was a Rushville banker.

HUNGER KNOWS NO ARMISTICE IN CAUCASUS

Colonel Haskell Reports to Near East Relief on Desperate Needs of Helpless.

"Peace may come elsewhere in the world, but hunger knows no armistice in the Near East," says Colonel William N. Haskell, Allied high commissioner in the Trans-Caucasus, in an appeal to Near East Relief, 1 Madison avenue, New York city, for food and supplies for the relief of the starving millions.

Colonel Haskell is in charge of all operations and disbursements of Near East Relief in the Caucasus.

"There is no fuel or shelter for the greater part of them during the terri-

COLONEL HASKELL

ble winter in the mountains," he says, "and the existing food supply is entirely inadequate for the great number of refugees without resources of any kind."

"By a recent agreement between the premiers of the republics of Armenia, Azerbaijan and Georgia to cease hostilities and settle all differences by arbitration one obstacle to relief work in the Caucasus has been removed and makes accessible a great number of destitute people who otherwise would perish this winter."

"Two hundred thousand destitute Armenians and Tartars can now be reached in the districts of Karabagh, Shusha and Nakhichevan, in the southeast section of the Trans-Caucasus, and we are planning to extend our work there. The economic situation is so desperate and food supplies so scanty that the Georgians have ordered 100,000 persons, mainly Russian refugees without employment, to leave the city of Tiflis. About 45,000 workers in the oil fields of Baku have been ordered by the Azerbaijanese to leave the city because there is no work for them and food is scarce."

Around every station along the railway are gathered groups of hundreds of homeless people lying huddled together on the ground, the majority of them too weak even to try to help themselves. From time to time the stronger ones climb on freight cars and move elsewhere, always seeking better conditions, which do not exist. Two hundred and sixty-three thousand homeless refugees from Turkish Armenia thus are constantly milling about throughout Russian Armenia, making the relief work conducted by the Americans a problem requiring infinite patience and organizing ability.

"This is especially true in view of the existence of 248,000 destitute inhabitants of Russian Armenia who possess homes, but no food, as well as 150,000 Greeks, Russians, Persians, Syrians and Yezidis who have been driven out of parts of Transcaucasia."

"One hundred and forty thousand Moslems, whose villages were destroyed in the course of five years of constant warfare, are helplessly encamped in the open around villages of their former enemies, begging infinitesimal quantities of flour, which they mix with dirt to give the illusion of nourishment."

"These hundreds of thousands of suffering adults, mostly homeless and lacking every necessity of life, having nothing more to lose, are concentrated in a country as yet inadequately policed or governed. They constitute a fertile field for the seeds of Bolshevism or any form of anarchy, the spread of which once loosed would be impossible to predict."

"It is generally admitted in the Caucasus that the Americans of the Near East Relief already have saved the lives of at least 30,000 babies and children and of 500,000 adult refugees and destitute. This work still is continuing."

"In an effort to procure funds to carry on the work and save the lives of these hundreds of thousands who otherwise will die of starvation and exposure Near East Relief, of which Cleveland H. Dodge is treasurer, is making an appeal to the American people."

98% Metal

A Maxwell is 98% metal, and the very best metal that metallurgists can specify. Pound for pound it equals the metal in any car built.

The Maxwell is made of light-weight but strong metals.

They had to be light because the mission of the Maxwell is economical transportation.

They had to be strong because the Maxwell is built to carry just as heavy a passenger load over the same roads and at the same speed as any car, despite its price or size.

Any engineer will tell you that in getting that rare combination of strength with lightness high prices must be paid for the metals.

Their use, however, repays the makers of the Maxwell in many ways because each car each day is winning friends.

Today these friendships, expressed in terms of cars, are well on the road to 400,000.

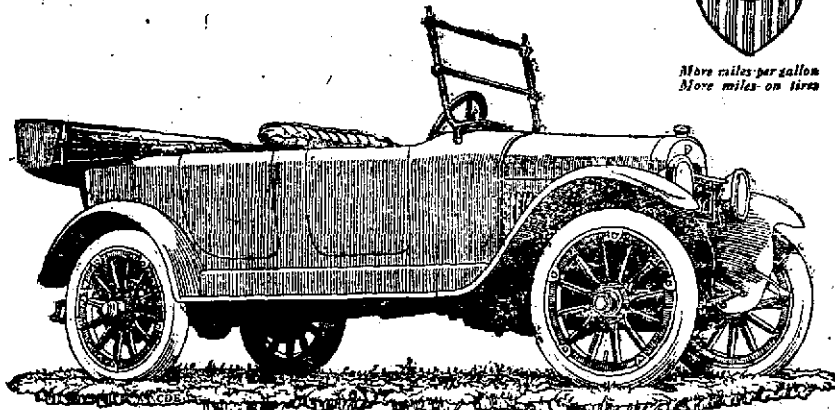

You cannot go back of these numbers any more than you can go back of the fact that the sun rises in the morning.

They tell the story; and it's largely a story of what the Maxwell is made of—fine metals.

TO CATCH TAX DODGERS

Washington, Feb. 24.—An appropriation to finance a one billion dollar drive on tax dodgers has been asked of congress by the internal revenue commissioner Daniel C. Roper, it was learned today. This amount, Roper informed the house appropriation committee, can be brought into the treasury if congress will allow sufficient funds for a thorough audit of all tax returns.

AN CATARRH BE CURED?

Does it Cause Tuberculosis, Pneumonia, Influenza To Be Contracted?

Free Examination and Lecture by Catarrh Specialist

The medical director of the Indiana Catarrh Institute, 1436 North Illinois St., Indianapolis, Ind., is going to be in this city for one day. He will give privately a free examination and consultation to everybody that goes to see him as well as a very interesting and instructive lecture on just what catarrh is; what it will do to a person afflicted with it and give proof that catarrh has been cured and is now being cured every day right in this city.

This expert specialist has spent seventeen years in the special study and treatment of chronic Catarrh. He has seen thousands of cases and positively pays no attention to any other disease than catarrh. He is at the head of a large institution in Indianapolis, which is devoted exclusively to the treatment of this one disease. He has an entirely new and different system of successfully treating this disease, which he will be glad to demonstrate to all who call on him.

This pleasant and successful system can be used at home, at very small expense without any loss of time or inconvenience. It works successfully on the worst old cases of catarrh, throat and bronchitis, chronic cough and bronchitis, crouping mucous in the throat, rhinitis in the chest, shortness of breath, clogged up head and nostrils, head noises and catarrhal deafness, sneezing and spitting, frequent severe colds. Asthma, hay fever, chronic catarrh of the stomach and bowels and all old "run-down" conditions due to catarrh.

Chronic catarrh is often the forerunner of Tuberculosis, Influenza, pneumonia and other fatal diseases. Stop wasting time and money on prayers, douches, salves, appliances and the methods of ordinary doctors. Go and consult a real specialist on his disease. It does not put you under obligation in any way. He is glad to advise you freely.

He will be at the Hotel Scanlan on Wednesday, Feb. 25th, from 9 a. m. to 8 p. m. and every twenty-eight days thereafter.

If it is impossible for you to call on him in person, you should write to find out all about this new system that is curing people. Just address card or letter to the Indiana Catarrh Institute, 1436 North Illinois St., Indianapolis.

35,000 SLACKERS CAUGHT

100 Have Been Convicted And Sentenced to Jail Terms

Washington, Feb. 24.—Approximately 35,000 slackers have been rounded up so far, the justice department has let it be known. These arrests represent work of months to round up the slackers of the country.

The names are divided into two lists, 173,000 men being classed as "willful deserters" from the draft and 151,000 being recorded as "suspects" who must be questioned and investigated. Of the 35,000 thus far arrested 100 have been convicted and sentenced to jail terms in the federal prisons.

LIBERAL PRESS IS FOR RUSSIAN PEACE

Announces That They Will Unite in a Demand For Peace on Grounds of Expediency

WORD IS SENT TO PREMIERS

London, Feb. 24.—The liberal press has united in a demand for peace with Russia on the ground of expediency.

As the council of premiers resumed their conferences to discuss the Russian situation, peace with the Soviet government was brought to the front not only by petitions signed by many high officials and report of a new offer from Premier Lenin, but also by an insistent demand in the press.

Premier Lloyd George and Nitti have agreed to complete resumption of commerce relations with Russia. The two premiers declared that commerce relations should be resumed at once because of Europe's economic situation.

It was understood that Premier Millerand representing France will accept the proposition of the British and Italian premiers.

THE CAR OF THE AMERICAN FAMILY

Hupmobile

How fortunate it is for us that the men who founded this business, set out with the simple idea of trying to build the best car of its class in the world. That clear-cut determination has led us to adopt policies which are careful and conscientious, and manufacturing principles which are sound and substantial. The net result has been a most unusual and cordial relation between ourselves and our public—based on the confidence which people have learned to place in the Hupmobile and the company which builds it.

WILL ORGANIZE THE STATE WOMEN'S CLUBS

Mrs. Elizabeth Sears Comes to Indiana This Week For Organization Work Among Cities

A NATION WIDE CAMPAIGN.

Indianapolis, Feb. 24.—Mrs. Elizabeth Sears, an organizer, for the National Federation of Business and Professional Women's Clubs, was to come to Indiana sometime during the present week to tour the state in the interest of forming clubs in several cities. She will also urge the advantage of having these clubs organized into a state body.

Mrs. Sears was to come here first for a conference with Mrs. Joselyn Courtwright, vice-president for the Federation for Indiana, and other women prominent in women's organizations.

The Indiana organization campaign is in line with work being done throughout the country. The campaign also will tend to increase the attendance at the third annual convention of the Women's Association of Commerce of Indiana in Indianapolis, March 20.

SIX DAY BIKE RACE OPENS

Sixteen Teams Were Ready to Start Contest in Chicago

Chicago, Feb. 24.—A stranger arrived in Chicago Monday. A six day bike race, new to Chicago, opened here with many of the New York entries at the starting line. Phil Elwell manager of the race, said sixteen teams started.

Among the well known speedsters in the race were: Eddie Madden and Alf Goulet, winning team of the New York race, John J. Staehle, Peter Droback, Joe Congrove, William Keller, Tom Grinn, William Eager, Gus Lang, George Chapman, James Cobert, William Weimar and Charles Pierrey.

They call this a "questioning age", but it was reported difficult to find census enumerators.

WARNS NATION OF RED PERIL

U. S. Department of Justice Urges Americans to Guard Against Bolshevism Menace.

CALLS RED PLANS CRIMINAL

Press, Church, Schools, Labor Unions and Civic Bodies Called Upon to Teach True Purpose of Bolshevik Propaganda.

Washington.—Calling for the patriotic support of all true Americans in its fight to protect their homes, religion and property from the spreading menace of Bolshevism, the United States Department of Justice has issued a warning against the insidious propaganda of the "Reds" during the new year. It reads:

"It would be extremely helpful to the cause of good government, the maintenance of law and order and the preservation of peace and happiness in our country if the people on this New Year's day would resolve to study, understand and appreciate the so-called 'Red' movement. They can counteract it most effectively by teaching its purpose through the press, the church, the schools, patriotic organizations and labor unions, all of which are within the range of its insidious attacks.

"Red" Theories Criminal.

"The 'Red' movement does not mean an attitude of protest against alleged defects in our present political and economic organization of society. It does not represent the radicalism of progress. It represents a specific doctrine—namely, the introduction of dictatorships the world over by force and violence. It is not a movement of liberty-loving persons, but a distinctly criminal and dishonest movement. Lenin himself made the statement at the Third Soviet Conference, 'Among one hundred so-called Bolsheviks there is one real Bolshevik, thirty-nine criminals and sixty fools.' It advocates the destruction of all ownership in property, the destruction of all religion and belief in God. It is a movement organized against Democracy and in favor of the power of the few built by force. Bolshevism, syndicalism, the Soviet Government, sabotage, etc., are only names for old theories of violence and criminality.

Russian Labor Crushed.

"Though their adherents in this country are advocating and fomenting strikes, Lenin and Trotsky forbid strikes, and trade unions are being broken up and completely subordinated to the will of the few demagogues in control in Russia. This Bolshevik experiment on the living body of the Russian people has not proven in any sense of the word an experiment in Democracy. The Bolshevik leaders frankly repudiate democratic principles as we understand them. It has been a gamble which meant for Russia, and, indeed, for the whole of humanity, enormous losses in lives as well as in material resources. The Bolsheviks have run up a colossal bill which the Russian workmen and peasants will have to pay.

"Reds" Menace America.

"Having lived at the expense of the Russian people for two years, these speculators in human lives and other people's earnings are trying to move to new fields to the east and to the west, hoping to take advantage of the economic distress and confusion of mind in which humanity finds itself after the terrific strain of five years of war.

"Its sympathizers in this country are composed chiefly of criminals, mistaken idealists, social bigots and many unfortunate men and women suffering with varying forms of hyperesthesia. They are enemies of the government, of the church and of the home and advocate principles which mean the abolition of all three of these safeguards of civilization.

Would Rob Everybody.

"Twenty million people in this country own Liberty Bonds. These 'Reds' propose to take away; \$530,000 people in the United States own farms and 3,838,000 more own homes, which they would forfeit; 11,000,000 old people have savings accounts in savings banks and 18,000,000 people have deposits in our national banks, at which they aim. There are hundreds of thousands of churches and religious institutions, all of which they would abolish. In other words, 110,000,000 hard-working and saving people who own property, love liberty and worship God are asked to abandon all the ideals of religion, liberty and government, which are the outcome of the struggles of their fathers and their own development, and to place themselves, their homes, their family and their religious faith in the keeping and their property under the domination of a small group of Lenins and Trozkys.

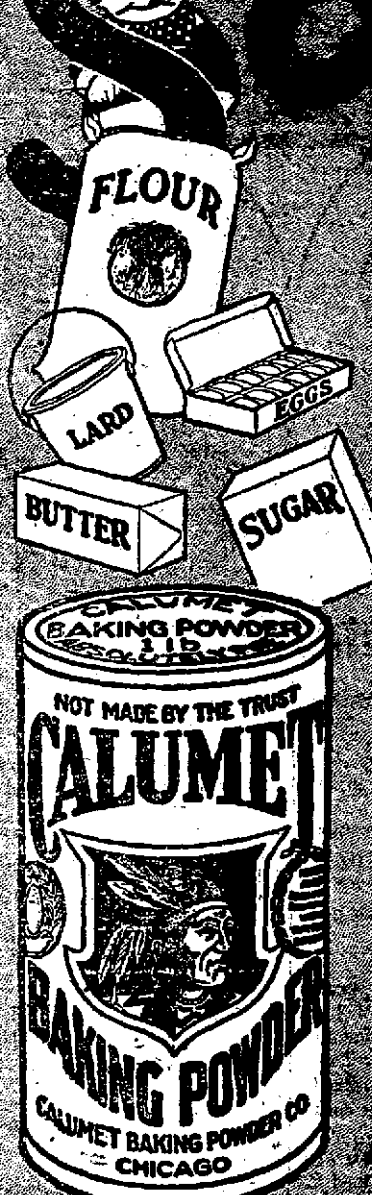

Protection Promised.

"This department, as far as existing laws allow, intends during the forthcoming year to keep up an unflinching, persistent, aggressive warfare against any movement, no matter how cloaked or disguised, having for its purpose either the promulgation of these ideas or the excitation of sympathy for those who spread them. The movement will not be permitted to go far enough in this country to disturb our peace and well-being or create any widespread distrust of the people's government. It will fall away before the light of popular knowledge and appreciation of its aims and purposes."

1,000 Club Members to Attend Meet At Purdue University

Lafayette, Feb. 24.—The "second boys' and girls' club round-up" which will attract more than 1,000 successful club members in Indiana, will be held at Purdue University, May 3-7. Program which provides for practically all of the instructional work in the form of contests, or demonstrations, is being arranged. Judging contests with corn, livestock, eggs, dairy cattle, sewing and baking will be arranged and teams representing the various counties in the state will compete. In addition, a debate between a team from Madison county and one from Clinton County, as to the relative merits of the horse and tractor will be featured. Games under the direction of athletic coaches at the University and Military drill for the boys under the direction of the Military officers will be added attraction.

Yellow Mustard for Sore Throat, Tonsillitis

Old fashioned remedies are often the best. Yellow Mustard, in the form of plaster or poultice, has been used for generations for soreness, inflammation, congestions and swellings with the most excellent results, but — it blistered.

Heat eases pain and Begy's Mustardine made of pure yellow mustard, together with other pain relieving ingredients, is just as hot, but quicker, cleaner and more effective and cannot blister.

When your throat is sore, when you have pleurisy, bronchitis or a pain-shooting chest cold you can get speedy and lasting relief with this most effective preparation because heat eases pain. Every druggist has it.—30 and 60 cents at druggists or by mail, S. C. Wells & Co., LeRoy, N. Y.

Building Materials will be scarce
HAUL THEM NOW

This year is going to be a big one for barns and no matter what type you want, it will pay you to get our suggestions and one of our free blue prints. There are a variety of plans from which to choose.

Like our barn plans, our designs for milk, hog and chicken houses as well as for other farm structures, conform to latest practice. All give buildings that help increase production, save labor, reduce the chances of disease, and cost you least in the long run.

But whatever you build will require materials, and materials while available now, will be as hard to get later as coal from an old cow. The record-breaking volume of construction scheduled for this year simply will tax the railroads and the building industry beyond capacity.

WORKS HARD TO
AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Four three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

CENSUS ANSWER TO 3 BILLION QUERIES

Census Employees Work This Year to Reduce Fraction of Error to Rock Bottom Minimum

100 PER CENT ACCURACY AIM

Accurate Enumeration of all Persons in U. S. Will Insure Better Government, Says Rodgers

Washington, Feb. 24.—One hundred per cent accuracy is the aim of 90,000 Census bureau workers who are in the home stretch of the 14th population count, Director Sam L. Rogers said today.

This census will include the answers to approximately three billion questions. The percent of error in past census reports has been less than one percent.

"It's been found almost impossible to get an absolutely perfect count," said Director Rogers, "but even census bureau employee is working this year to reduce the fraction of error to rock bottom minimum."

Former census reports have proved that some factors which tend to cause error may be listed like this:

A considerable portion of persons do not know their age.

Perversity of human nature causes a few people to deliberately dodge the census enumerator to boast of the doubtful distinction that "you can't find ME in the census."

A few criminals fear to be counted.

Thousands of persons always are "out" when the enumerator calls and data relating to them is furnished by landladies, friends and relatives who are forced to guess to some extent.

An accurate enumeration of all persons in the U. S. will insure better government, according to Rogers.

"Stockholders, directors and officials of big business concerns," he said, "now find that they must study the statistics of their business to keep abreast of the times. They find that they can more intelligently direct their business that way."

"By the same token, a study of the Census returns by the stockholders of U. S. government, that is, by the people, will result in better government."

Rogers hopes to have first population returns of big cities ready within a few weeks. He is planning to make the returns public as soon as the count is checked over for each city without waiting until the entire count is complete.

It will be three years before the bulk of the information collected in this census count will be available in book form. It will fill 14 or 15 big volumes.

Rogers is planning to make these volumes more practical than ever, he said.

"To insure this," he said, "I appointed an advisory committee of businessmen and statisticians."

Officials assisting him say this has proved one of the most difficult census enumerations yet undertaken. Unrest due to political conditions is partly responsible. This is particularly true of the attitude of the foreign population of many large cities. Many foreigners feared the census enumerator. Some thought the enumerator was sent out to gain information that might lead to wholesale deportations.

To counteract this, Rogers waged an educational campaign in the foreign districts of the big cities to explain the census. Tons of pamphlets explaining the purpose of the census were distributed through school children who were encouraged to write articles about the census. It was hoped that the foreign born parents would be reached through their children.

Census bureau officials are preparing for the flood of letters of inquiry that always follow the making public of the first returns. Demands of special information include many queer requests. One question has become classic in census bureau history. Thousands of persons, it seems, are unable to sleep well at night unless they know the exact spot designated as the center of population of continental U. S.

There are two such points. One is the line at which the median lines intersect. The other is called the "center of gravity of population."

The last is the point at which the U. S. would balance if it were a gigantic cardboard or flat plain and all the inhabitants were standing still and also if every person weighed exactly the same as every other person.

The 1910 census placed this gra-

DR. OSBORN'S IMPROVED METHODS ARE EXCLUSIVELY HIS OWN, AND THERE IS NO GUESSWORK ABOUT IT. THEY HAVE PROVEN SUCCESSFUL.

In the treatment and cure "without the use of the knife" of Piles, Fistula, Fissure, Prostatic Enlargement, Rupture, Chronic Diseases of the Kidneys, Bladder, Obstruction, Rheumatism, Stomach, Bowels and all other curable Chronic Diseases.

No Matter How Obstinate or How Contracted — Cured

When I say I can cure you, you can depend upon it, for I know from the successful results in thousands of similar cases to yours, just what I can accomplish. Grateful patients treated by me are constantly recommending others, and this is why I possess such a large practice.

Men! Women! If you do less than you should, on your farm, at your desk, or in your shop, you are in some way weak. If you can't accomplish all that you expect or hope for, you are the silent sufferer from some hidden disease that affects one or more of the important nerve centers of the body. These neglected or unknown conditions, are usually diseases of the Pelvic System, which reflexly act upon the organs of Elimination, digestion and the nervous system, which in turn has its influence on the brain. I have made a special study of the Nervous System and have perfected methods that will cure where ordinary methods have failed. I will give you a searching and thorough examination FREE, thus determining the exact location of your trouble.

BEAR IN MIND that I have in Indianapolis one of the most modern and thoroughly equipped offices in the state with a Specialist in charge who is ripe in years of experience, rich and mature in learning in his chosen work. That neither one of us will promise you more than we can give, and should you be unable to see me on date specified above, you can write, or better still, call at my home office, 314 Traction Terminal Building, Indianapolis.

I do not use the knife, neither do I do any cutting.

city point at Bloomington, Ind.

The other point indicates the trend of population westward. The median lines are drawn east and west and north and south. Each is drawn so that it exactly divides the population in half. The 1910 census located the intersection of the median lines at Winchester, Ind.

In 1790, the first year the census was taken, the median lines crossed 22 miles east of Baltimore. The second census taken in 1800, discovered the intersection had moved to a point 18 miles west of Baltimore while in 1810 the point was 40 miles west of Washington, D. C. After that the point marched continually westward through Parkersburg, W. Va., Chillicothe, O., and then to Cincinnati. This year it is expected to be found west of Winchester.

TO REDUCE ISSUE ON PACT

Irreconcilables to Carry Treaty as it Stands or Not at All

Washington, Feb. 24.—The treaty irreconcilables in the senate have set out to reduce the issue on the pact in the coming campaign to its simplest terms, carrying the treaty as it stands or no treaty at all. They want the issue to go before the people stripped of all arguments about reservations so the one essential question will be acceptance or rejection of the treaty as it stands.

Borah and Johnson want to transfer the fight from the senate to the stump in a few days. They intend to carry the fight in the primary contests soon to be held in various states.
